***The PALight Survival Light***

***The Personal Accessory Light (PAL) Survival Light, is an absolute must for your Work or At-Home Safety Program.***

***Great light weight emergency strobe and standard flashlight whatever your outdoor or indoor activity is.***

# 2 YEAR POWERCUT PROTECTION!

This torch doesn't turn off and lasts for 2 years!  
Proven use in the wild by survival experts, the  
PALight is SMALL BUT POWERFUL!

Weighing only a little more than the battery,  
with sophisticated electrical and optical  
technology ensuring that it is amazingly  
efficient. 3 modes tailored for your needs in all  
situations!

## NIGHTLIGHT / OFF MODE

Beaming for 2 years, this  
produces enough light  
for the PAL to be found  
in any low-light situation.

Ideal for use as a  
nightlight or even for navigation in pitch-black  
conditions.

## HIGH BEAM MODE

Lasting over 40 hours  
in this mode, you can  
enjoy bright light for  
nearly 2 full days  
continuous use on one  
battery.

## LOW BEAM MODE.

Lasting for a week's continuous use, this  
mode is great for reading in low light, or  
navigating familiar routes. Ideal for power cut  
use!

## FLASHING MODE

With enough power to be seen from over  
300m in daylight, the  
Flashing mode can be  
used to attract attention  
in any distress situation  
by the press of a button.  
8 days of non-stop  
flashing!!

## ADDITIONAL INFORMATION

- o Shock Resistant. Unlikely to break when dropped. Safer - no shatter able glass. Cost-effective - less likely to need replacement.
- o Shielded Internal Electronics. Prevents battery corrosion and extends life of the flashlight.
- o Soft Sanoprene Case. Comfortable to hold. Latex-free - hypoallergenic.
- o Long Lasting! Unlike conventional flashlights, PAL lights won't dim and then immediately die.
- o Replaceable Battery: The PALight operates on a standard PP3 9V battery (Duracell 'square battery') that is easy to replace.
- o Metal Key clip in bottom case for lanyards. For the seasoned survivor.
- o Physical Properties: All models weigh 3 ounces with the battery. It measures 2 7/8" L x 1 1/4" W x 1" Thick. The band releases the bottom case for battery replacement by pressing down on the right (engraved side) and pulling the left side away from the body.
