

Established in 2002 this 10 bedroom accommodation has been created to provide a versatile centre for either short or longer-term holidays.

Special care has been taken to provide access for those less mobile, and generous provision has been made for wheelchairs. We have been awarded Government Objective One funding to enable us to provide this.

Several of the rooms have adjoining lounges and interconnecting doors which enable smaller or larger groups to enjoy privacy.

Unfortunately we are not able to provide evening meals, but we are happy for the dining area to be used for take-aways in the evenings.

As we are a working farm we are only able to welcome guide dogs or hearing dogs for the deaf.

The rooms are all non-smoking

The buildings are set in a 190 acre farm of which 90 are mixed woodland to which guests will have increasing access. Three wildlife ponds are being developed, the intention being to revert the farm to an ecologically friendly environment.

Conveniently situated only 3 miles from the city of Truro, many of the county's attractions are easily accessible by road.

- Eden Project 20miles
- Heligan Gardens 25miles
- Trelissick Gardens 6miles
- Falmouth Maritime Museum 12miles

Project part financed by the
EU, EAGGF & DEFRA.
